American Maritime Safety's Chemical Testing Program

U.S. Coast Guard regulations require that vessel operators enroll safety sensitive personnel in a Chemical Testing Program.*

American Maritime Safety, Inc. provides organizations with the necessary tools and support to comply with these regulations. Active membership in our consortium provides access to the following requirements:

- Certificates of Enrollment in a Random Chemical Testing Program
- Drug and Alcohol Testing supplies
- Employee Assistance Program
- Drug & Alcohol Collection Training
- 24-hour Post Incident Specimen Collection Services

Our comprehensive program satisfies all U.S. Coast Guard Chemical Testing requirements

American Maritime Safety, Inc. offers supplemental programs that enhance safe working practices:

- Preventing Sexual Harassment Liability & Anti-Discrimination Training
- Responsible Alcohol Service: Bartender Training
- Employee Discipline Training
- Guidelines for Internal Investigations Training
