- 1.2.2. Provide event names, dates, locations and description of how athletes qualify for the trials, events and camps listed above in 1.2.1. (if any)

Each of the Selection Events may have limited entries awarded by World Sailing or the Organizing Authority. If upon release of the individual Notices of Race, the Organizing Authorities determine there will be limited entries, then a ranking system will be used to rank sailors for entry, as described below by event.

2019 Olympic Test Event Selection Criteria.
2020 World Cup Series Japan Enoshima (Aug'19).
2020 World Cup Series USA Miami (Jan'20).
2019 & 2020 Laser & Radial World Championships

- 1.3. Provide a comprehensive, step-by-step description of the method that explains how athletes will go through the selection process (include maximum Team size).

For the 2020 Olympic Regatta, Sailing will have ten events and US Sailing will send one boat per event, pending country qualification, for a maximum team size of 15. Each of the Selection Events will be governed by the *WS Racing Rules of Sailing*, and will be administered by the Organizing Authorities specific to each regatta. Athletes are expected to follow all instructions for registration, measurement, competition, protests, etc. and follow all protocols established by the various Organizing Authorities for each event. Athletes will be scored as follows to determine the 2020 Olympic Games nominee(s) to the USOC.

Scoring:

Scores will be kept by boat. Boat is defined as the class and athlete(s) sailing the boat at the time of the selection event. In double-handed classes, a pair of athletes will qualify to compete as a boat, unless a replacement is necessary for any reason listed in Section 3 or 4.

Early Selection (All Classes): In order to achieve early selection, a boat must finish in the top three (3) in at least one (1) of the regattas listed in 1.2.1.1, have a cumulative series score of seven (7) points or less in the same boat class from one event in Set #1 plus the event in Set #2 (the 2019 class World Championships), and be the only US boat to achieve these results in its class.

A cumulative series score will be generated using a low point scoring system whereby finishing position equals finishing points, counting finishing positions including international teams at all events. For example: if a boat wins either the 2019 Olympic Test Event or the 2020 World Cup Series Japan Enoshima, and the boat finishes in the top six at the 2019 Class World Championship, and is the only US boat in their class to achieve a cumulative score of seven (7) points or less, the athlete(s) from the boat will be nominated to the 2020 Olympic Games Team and the mid selection and late selection process will no longer apply to this class.

If no US boat has achieved early selection or if multiple US boats achieve early selection within the same boat class, then no boats are nominated, and the selection process continues.

Mid Selection (Only 470 Women & Men, RS:X Women & Men, Finn): In order to achieve mid selection, and therefore nomination to the 2020 Olympic Games Team, a boat in the five classes listed above must finish in the top eight at the 2019 Class World Championships and have a cumulative series score of thirteen (13) points or less from the two events listed in 1.2.1.2, and be the only US boat in its class to achieve these results. If mid selection is achieved, the late selection process will no longer apply to the given class(es) that has achieved this result.

If no boat has achieved mid-selection or if multiple US boats achieve early selection within the same boat class, then no boats are nominated and the selection process continues.

Late Selection (All Classes):

The US boat, per class, with the lowest cumulative series score in the events listed in 1.2.1.3 will achieve late selection as the 2020 Olympic Games nominee(s) to the USOC. If there is a series-score tie between two or more boats, they shall be ranked in order of the better score at the 2020 World Championships.

2. DISCRETIONARY SELECTION (if applicable)

2.1. Provide rationale for utilizing discretionary selection (if any):

The sport of Sailing is not a measured or timed event. Sailing is a sport that requires proficiency in a wide range of individual skills including physical, technical and psychological elements. In double-handed classes, these skills must be combined to form an effective unit.

US Sailing will use discretion to select replacement athletes. The decision to select a replacement athlete, either skipper or crew, in a doublehanded boat prior to confirmed nomination will be limited to extraordinary circumstances such as described in 3.1.2, 3.1.4 and 3.3.

The Selection Committee has determined it is in the best interest of US Sailing for doublehanded teams to remain a team once the selection process has begun.

2.2. List the discretionary criteria and explain how they will be used (if any):

The Discretionary Selection Committee in section 2.3 will use the following criteria (in no priority order):

- Highest probability for medal-winning performance as determined by the Selection Committee, based on performance in past national and international level regattas, as well as resume and interview.

Factors will include physical, technical and psychological/social proficiency as follows:

Physical

- Possesses appropriate fitness and strength as evidenced by performance in past national and international regattas.
- Has the appropriate physical size to be at a competitive size and weight.

Technical

- Proficient in the boat handling and trim techniques for the class (tacking, gybing, use of the spinnaker, sail trim and balance), and the game situations and tactics, as evidenced by performance in past national and international regattas.

Psychological/Social

- Possesses appropriate attitude and demeanor to be a positive member of the team, including respect for the game, personal integrity, and a strong work ethic, as evidenced by performance in past national and international regattas, as well as by interview.

All individuals/teams must meet the eligibility requirements outlined in section 1.1, otherwise the individual/ team will be ineligible.

- 2.3. Provide the name of the committee that will be responsible for making discretionary selections, along with a complete list of the members' titles currently serving on the committee:

A Discretionary Selection Committee will be formed of individuals serving in the following roles:

Chief of Olympic Sailing
Chief Operating Officer of Olympic Sailing
Chair of Olympic Sailing Committee
Athlete Advisory Rep to USOC
Senior Coach

Any individual who is unable to serve on the Discretionary Selection Committee for whatever reason will be replaced by a representative selected by the Committee listed in section 11.

- 2.3.1. Specify the process that will be used to identify and handle any potential conflicts of interest involving a member of the committee.

Any member of the Discretionary Selection Committee that has a possible conflict of interest must disclose it. If such conflict exists, the selection committee member must recuse him/herself from committee discussions and voting. Further, the committee member should not otherwise influence other members of the committee in the selection process. However, a committee member who recused him/herself, but who has relevant and necessary information with respect to athlete performance, for example a national team coach, may, if requested by the Discretionary selection committee, provide such information to the committee so long as such information is provided in a fair and unbiased manner and the committee member who declared the conflict of interest does not vote toward the final decision.

3. REMOVAL OF ATHLETES

- 3.1. Prior to entry by name to the Local Organizing Committee by the USOC, US Sailing has jurisdiction over potential nominees.

An athlete who is to be nominated to the Team by US Sailing may be removed for any of the following reasons, as determined by US Sailing:

- 3.1.1. Voluntary withdrawal. Athlete must submit a written letter to the US Sailing Chief of Olympic Sailing.
- 3.1.2. Injury or illness as certified by a physician (or medical staff) approved by US Sailing. If an athlete refuses verification of his/her illness or injury by a physician (or medical staff) approved by US Sailing, his/her injury will be assumed to be disabling and he/she may be removed.
- 3.1.3. Failure to participate in Mandatory Training and/or Competition as defined in Section 9 of these procedures.
- 3.1.4. Violation of US Sailing's Code of Conduct
- 3.1.5. Athlete replacement process as detailed in 4.1

An athlete who is removed from the Team pursuant to this provision has the right to a hearing per US Sailing's Bylaws (as mentioned in US Sailing's Bylaw 702) and the USOC's Bylaws, Section 9.

- 3.2. Once athlete entries have been submitted to the Local Organizing Committee by the USOC, the USOC has jurisdiction over the Team, at which time, in addition to any applicable US Sailing Code of Conduct, the USOC's Code of Conduct and Grievance Procedures apply. The USOC's Code of Conduct and Grievance Procedures can be found at:
<http://www.teamusa.org/Athlete-Resources/Athlete-Ombudsman/Resources/Code-of-Conduct>

- 3.3. An athlete may be removed as a nominee to the Team or from the Team for an adjudicated violation of IOC, PASO, IPC, WADA, IF, USADA and/or USOC anti-doping protocol, policies and procedures, as applicable.

4. REPLACEMENT OF ATHLETES

- 4.1. Describe the selection and approval process for determining replacement athlete(s) should a vacancy occur:
 - 4.1.1. Prior to submission of Entries by Name to the Local Organizing Committee, including any applicable group or committee:

After the beginning of the first event in 1.2.1.1 and prior to confirmed nomination:

Any request to the Selection Committee to allow a team to split up for reasons as outlined in 3.1.2, 3.1.4 and 3.3 is at the discretion of the Discretionary Selection Committee. In the event of the need to replace either the skipper or crew in a doublehanded boat, the Discretionary Selection

Committee will decide whether or not to approve a replacement athlete using the rationale and discretionary criteria in Section 2. If a replacement athlete is approved by the committee, the boat (as defined in 1.3 Scoring) will carry forward any scores. If a replacement athlete is not approved by the committee, no points will be carried forward by the boat.

After selection has been confirmed and up to first Olympic Games Team Leader meeting:

In the event of the need to replace an athlete in a single-handed boat, or the entire team in a double-handed boat, they will be replaced with the next highest overall finishing boat from the Selection Events in the relevant class (see Section 1.3). In the event of the need to replace one athlete in a double-handed boat, the Discretionary Selection Committee will use the discretionary criteria in Section 2.2 to select a replacement athlete or may select the next highest overall finishing boat from the series standings for the Selection Events in the relevant class.
