

Instagram

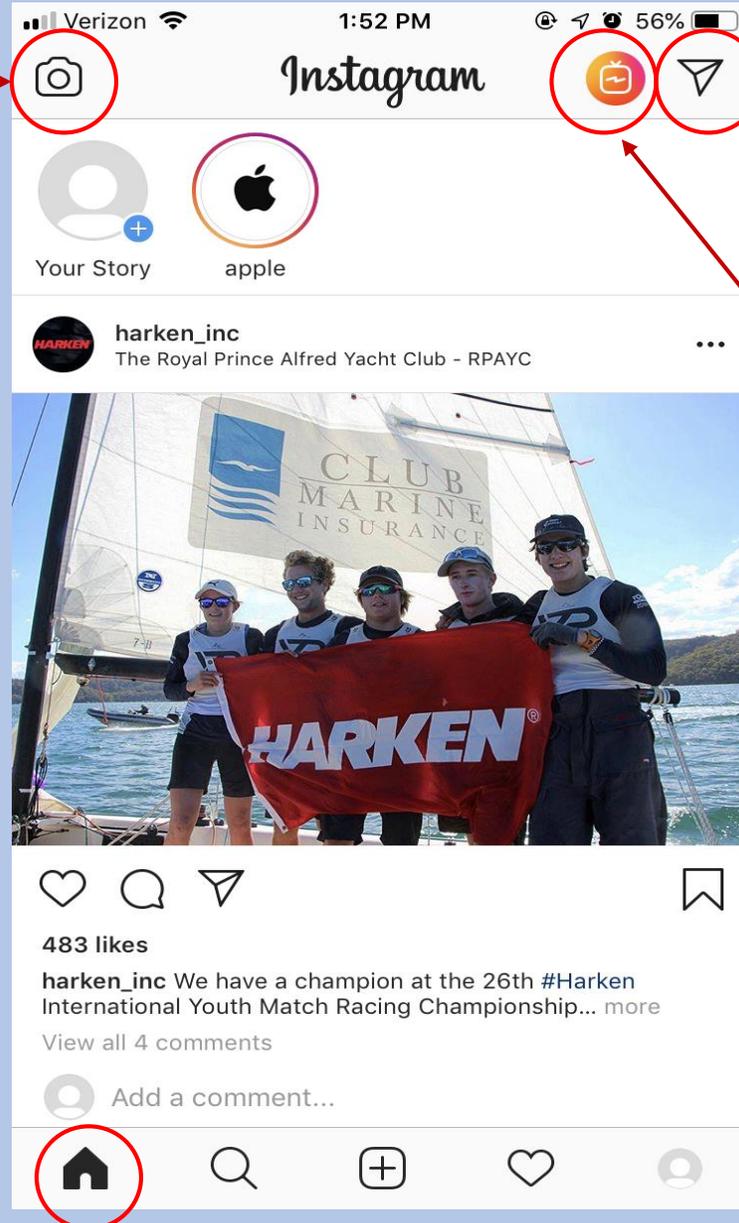

# Social Media How-To

This is where you can post Instagram stories or start live videos

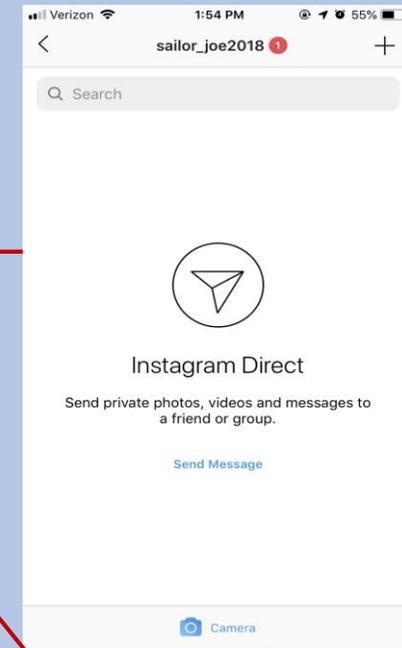

Instagram stories stay up for 24 hours and then they are moved into an archive folder

# Home Page

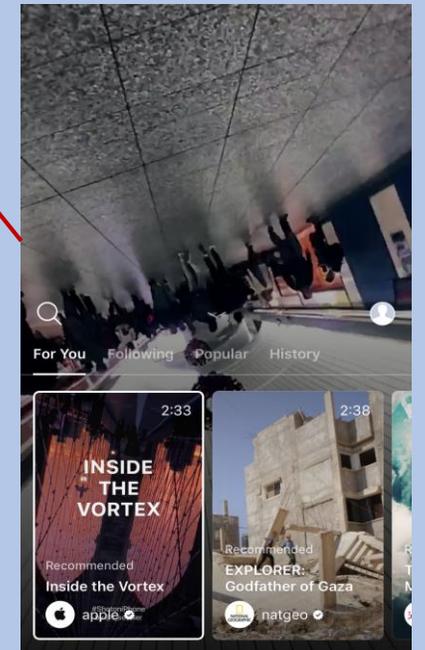

When this icon is highlighted, that indicates that you are on the Home Page

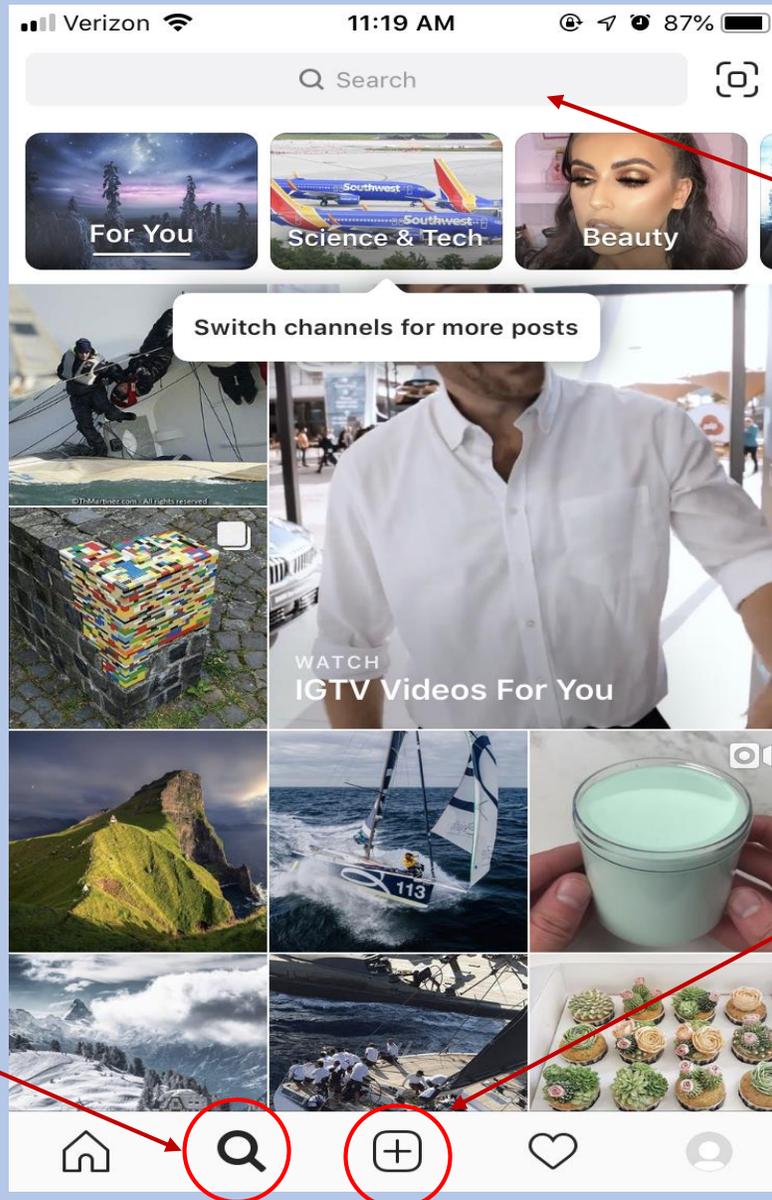

Instagram Direct Messaging is similar to text messaging; this is where you can privately communicate with your Instagram followers

Instagram TV is for sharing and viewing videos that can be up to a hour long each

# Search Page

Use the search bar to look for people or organizations to follow

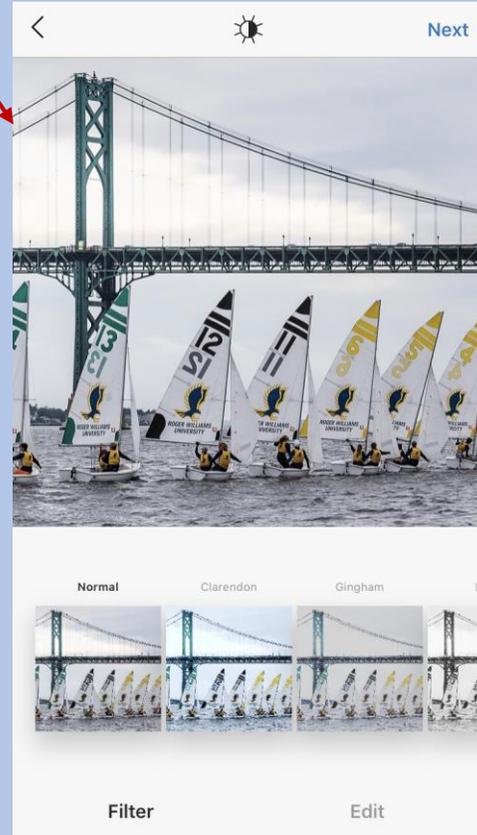

When this icon is highlighted, that indicates that you are on the Search Page

Use this icon to post photos and videos (see next slide for details)

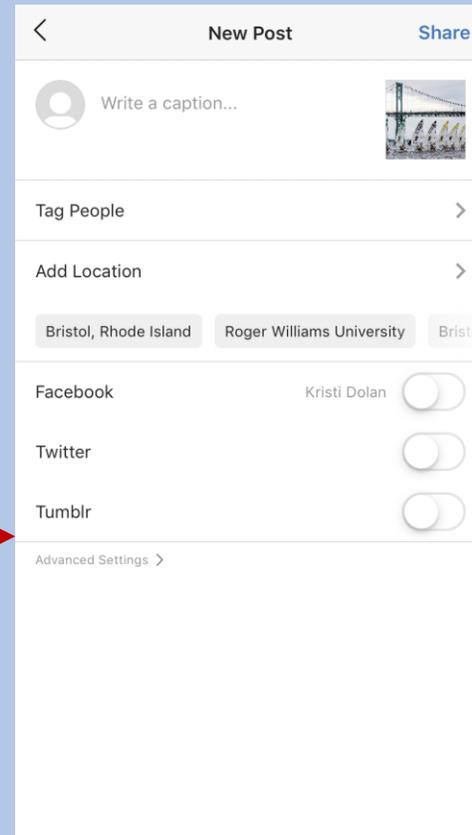

# Posting

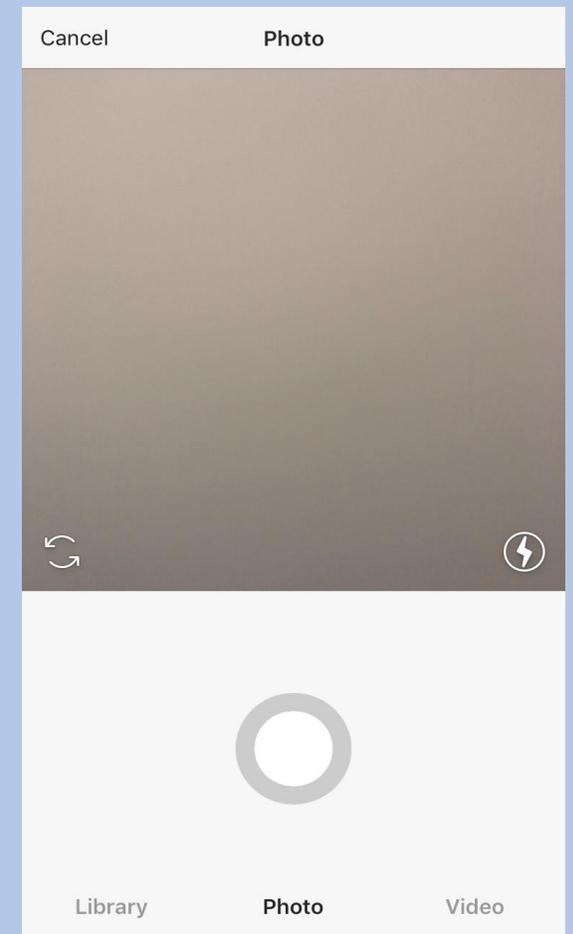

One option when you want to make a post, is choosing a photo or video that is already in your camera roll

After choosing a photo, you can add a filter or edit the post

On this screen, you can add a caption, tag people and add a location

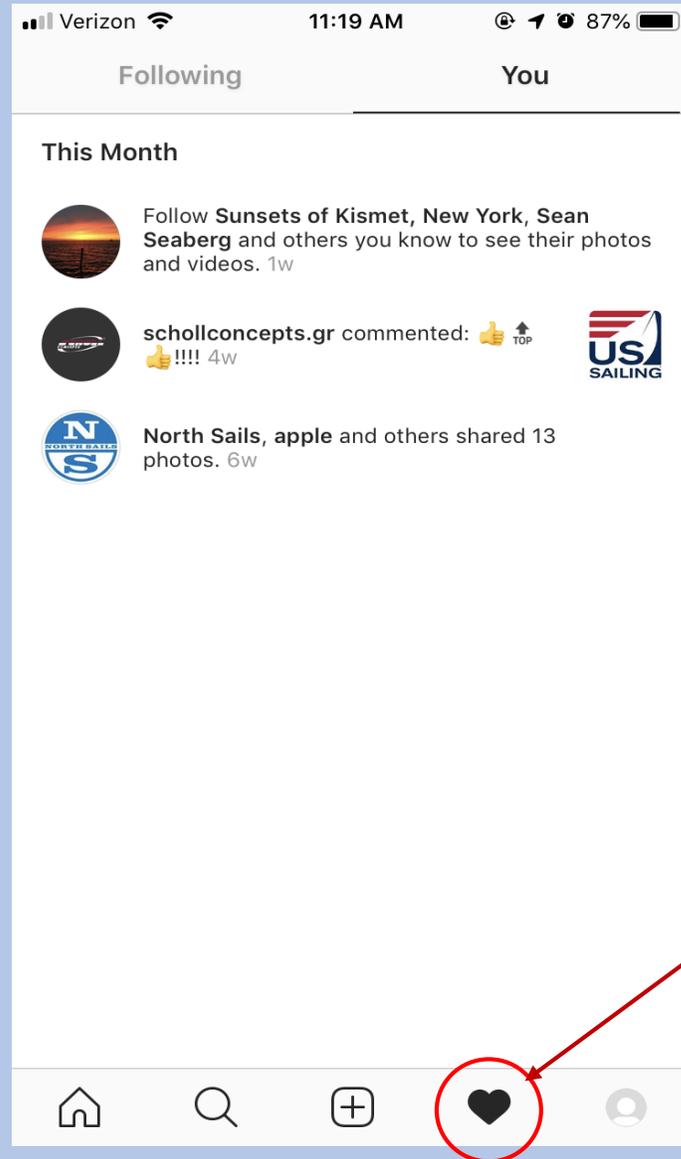

Another option when making a post is taking the photo or video through Instagram

Once the photo/video is taken, the same options to edit the post will appear

# Notifications

What will appear on the Notifications Page?

- Any follow requests from other Instagram users
- Likes or comments on your posts from other users
- Notifications that you were tagged in another user post

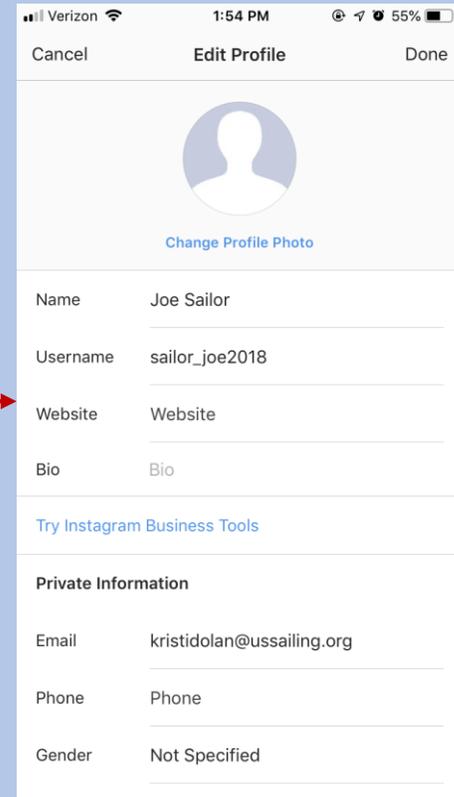

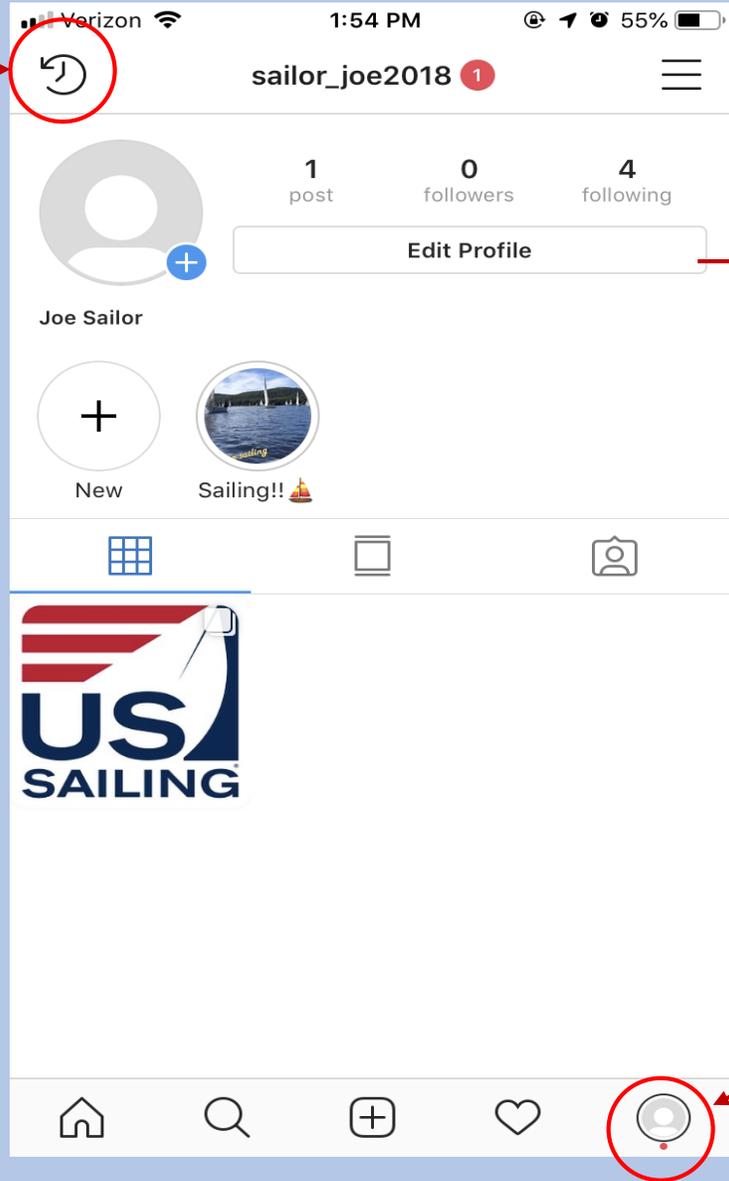

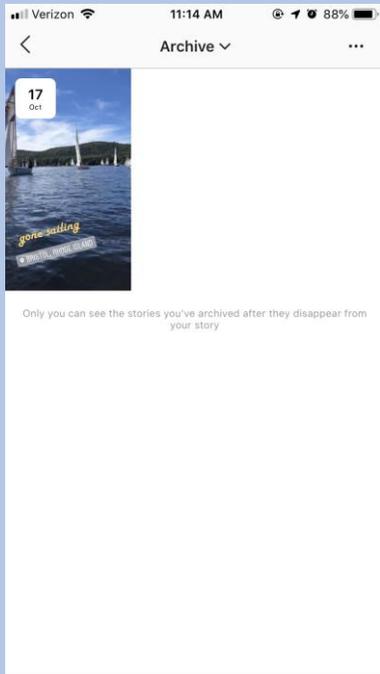

When this icon is highlighted, that indicates that you are in the Notifications section

# Profile Page

The archive is where all your previous stories are kept

From this page you can add your archived story to your Highlights, which will stay on your profile page forever until deleted

To change your profile picture or biography, use the Edit Profile prompt

Using this icon will bring you to your Profile
