Siebel Sailors Program Center Application

GENERAL OVERVIEW

US Sailing is expanding its successful Siebel Sailors Program to further increase opportunity and diversity in the sport of sailing. We are seeking partners who want to deepen the impact on their community and join us in a long-term approach of engaging and retaining new sailors.

MISSION

The Siebel Sailors Program seeks to increase opportunity and diversity in the sport of sailing. By providing resources and support to youth sailors from all backgrounds, we seek to include participants who have historically been underrepresented in the sailing community. It is encouraged to recruit sailors from diverse backgrounds of race, ethnicity, religion, socioeconomic status, disability, sexual orientation, gender identity or expression, national origin, or any other status protected by law, and we will hereby refer to this group as "The Siebel Community." The Siebel Program will develop skilled and lifelong sailors who can participate in all aspects of the sport by creating access to equipment, athlete development resources, and expert coaching for underserved populations.

1.	Taking into consideration your current programming, where do you see the Siebel Sailors Program fitting into

2.	Explain how your Center would handle the following situations: a. Student Scenario: In a beginner double handed class at your Center a student named Sarah, who normally has a very outgoing personality, is not participating in the class. When Coach pulls her aside and asks what going on Sarah explains that one of the boys in the class, her boat partner, has been making fun of her skin color. The boy repeatedly taunted Sarah yelling that "only light skin is pretty," and kept poking her with the tiller. How would your Center handle this?
	b. Program Scenario: In an intermediate doublehanded class, one of the students, Jerry, is having a hard time sailing with a consistent partner. Multiple other students have complained and requested not to sail with Jerry. In addition to not being able to sail with anyone in the class, Jerry has had multiple incidents of disruptive classroom behavior. The instructor comes to you clearly full of frustration and unsure what to do. How do you handle this?
3.	Creating a Welcoming Environment is vital to increase inclusivity at your Center. Please describe how your Center creates a Welcoming Environment for your sailors, parents/families, instructors and members?
